

Safety Data Sheet

Date of issue: 01/06/2017

Revision: 1

Date of Revision: 01/09/2020

Section 1: Manufacturer and Product Identification

Manufacturer/Supplier/SDS Preparer:

VinTech Nano Materials, LLC

Springdale, Arkansas 72764

Phone: (479) 725-8003

Email: info@vintechnm.com

URL: www.vintechnm.com

Fax: (479) 756-9919

Emergency Phone: 479-717-6048

Product information:

AtomOil® Engine Oil Treatment

Recommended Use:

Industrial Lubricant

Secondary* Emergency Phone: 1-800-424-9300 (CHEMTREC, CCN 793730)

*In case of emergency, call primary number first. If call goes unanswered, then call CHEMTREC.

Section 2: Hazards Identification

Hazard Classification:

Health Hazards:

Skin Corrosion/Irritation

Category 2

Eye Damage/Irritation

Category 2B

Warning Label Items:

Pictogram(s):

Signal Word(s): WARNING

Hazard Statement(s):

Causes skin irritation.

Causes eye irritation.

Precautionary Statement(s):

Prevention:

Wash exposed areas that have come in contact with material thoroughly after handling.

Wear protective gloves.

Response:

If in eyes: rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

If on skin: Wash with plenty of water.

Specific treatment (see “First-Aid Measures” section of this SDS).

If skin irritation occurs: Get medical advice/attention.

Take off contaminated clothing and wash it before reuse.

Hazards Not Otherwise Classified:

May cause possible gastric distress if ingested.

May cause slight respiratory tract irritation if inhaled.

Percentage of Ingredients with Unknown Toxicity:

Zero

Section 3: Composition / Information on Ingredients

<u>Chemical Identity</u>	<u>Concentration (%)</u>
Component A	70 – 80
Component B	15 – 25
Component C	2 – 7
Component D	0 – 1

The specific chemical identities and exact percentages (concentrations) of composition have been withheld as trade secrets.

Section 4: First-aid Measures

After inhalation:

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice if breathing difficulties continue.

After skin contact:

Immediately remove contaminate clothing and shoes. Wash with water and soap and rinse thoroughly for at least 15 minutes. If symptoms persist, get medical attention.

After eye contact:

Rinse opened eye for at least 15 minutes under running water. If symptoms persist, get medical attention.

After ingestion:

Get medical attention if symptoms occur. Do not induce vomiting.

Most important symptoms/effects, acute and delayed:

Causes skin and eye irritation.

Immediate medical attention required:

None needed.

Section 5: Fire-fighting Measures

Flammability:

May burn, but does not ignite readily.

Means of Extinction:

Use dry chemical, foam, halon, or CO₂. Move container from fire area if you can do it without risk. Apply cold water to sides of container that are exposed to flames until well after the fire is out. Keep distance from the fire and the container.

Flashpoint (°C) and Method:

Not determined

Upper Flammable Limit (% by volume):

Not determined

Lower Flammable Limit (% by volume):

Not determined

Autoignition Temperature (°C):

Not determined

Explosion Data – Sensitivity to Impact:

Not determined

Explosion Data – Sensitivity to Static Discharge:

Not determined

Hazardous combustion products:

Oxides of carbon, smoke, and irritating vapors.

Protective equipment:

Wear self-contained respirator. Wear fully protective impervious suit.

Section 6: Accidental Release Measures

Small spills:

Contain and collect spillage with non-combustible, absorbent material (for example, sand, vermiculite, or diatomaceous earth) and place in container for disposal according to local regulations.

Large spills:

Enclose the spill area for later disposal.

Person related safety precautions:

Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation.

Measures for environmental protection:

Prevent entry into environment (sewers, water, soil). Do not allow material to be released to the environment without proper governmental permits.

Measures for cleaning/collecting:

Ensure adequate ventilation. Stop leak if without risk. Dispose of via a licensed waste disposal contractor.

Section 7: Handling and Storage

Handling

Information for safe handling:

Keep container tightly sealed. Slowly open the container. Ensure good ventilation at the workplace.

Storage

Requirements to be met by storerooms and receptacles:

Store in cool, dry place in tightly closed containers. Keep away from freezing. Protect material from direct sunlight.

Information about storage in one common storage facility:

Store away from strong acids and oxidizing agents.

Section 8: Exposure Controls and Personal Protection

<u>Chemical Identity</u>	<u>ACGIH TLV</u>	<u>OSHA PEL</u>
Component A	5 mg/m ³ TWA*	5 mg/m ³ TWA*
Component B	5 mg/m ³ TWA	5 mg/m ³ TWA
Component C	None	None
Component D	None	None

*as oil mist

Specific Engineering Controls:

Provide sufficient mechanical ventilation to maintain exposure below TLV(s). Overexposures to vapors and mists may be prevented by ensuring ventilation controls, local exhaust and/or fresh air entry.

Eye Protection:

Vapor tight chemical-type splash goggles should be worn when the possibility exists for eye contact due to splashing or spraying of liquid or the generation of airborne particles or vapors.

Skin Protection:

Wear protective clothing.

General Protective and Hygienic Measures:

The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.

Respiratory Protection:

Use NIOSH-approved respirator if there is potential to exceed exposure limits.

Protection of Hands:

Wear impervious gloves. Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.

Section 9: Physical and Chemical Properties

General Information

Physical state: Liquid

Color/Appearance: Amber to Green

Odor: Mild

Odor threshold: Not determined
Specific gravity: Not determined
Vapor density: Not determined
Vapor pressure: Not determined
Evaporation rate: Not determined
Boiling point: Not determined
Freezing point: Not determined
pH: Not determined
Coefficient of Water/Oil Distribution: Not determined
Melting point/Melting range: Not determined
Sublimation temperature / start: Not determined
Flash point: Not determined
Fire point: Not determined
Autoignition temperature: Not determined
Decomposition temperature: Not determined
Danger of explosion: Product does not present an explosion hazard.
Explosion limits:
 Lower: Not determined
 Upper: Not determined
Solubility in / Miscibility with Water: Insoluble
Viscosity: Not determined

Section 10: Stability and Reactivity

Reactivity:

Not reactive if used and stored according to specifications.

Chemical Stability:

Stable under normal conditions.

Possibility of Hazardous Reactions:

Dangerous reactions and decomposition will not occur if used and stored according to specifications.

Conditions to Avoid:

Keep away from freezing. Protect material from direct sunlight. Store away from strong acids and oxidizing agents.

Incompatibility with Other Substances:

Strong acids and oxidizing agents.

Hazardous Decomposition Products:

Oxides of carbon, smoke, and irritating vapors.

Section 11: Toxicological Information

Effects of Acute Exposure:

Slightly irritating to skin, eyes, and respiratory tract.

Effects of Chronic Exposure:

No known significant chronic effects.

Irritancy of Product:

Slightly irritating to skin, eyes, and respiratory tract.

Skin and Respiratory Sensitization:

No known sensitization effects.

Carcinogenicity (NTP, IARC, ACGIH or OSHA):

Component D contains less than 1% of naphthalene, which is classified as carcinogenic by IARC (Group 2B) and NTP (Group 2).

None of the remaining components are classified as carcinogens by NTP, IARC, ACGIH or OSHA.

Reproductive Toxicity:

No known reproductive effects.

Teratogenicity:

No known teratogenic effects.

Embryotoxicity:

No known embryotoxic effects.

Mutagenicity:

No known mutagenic effects.

Name of Synergistic Products/Effects:

None known.

Acute toxicity:**LD/LC50 values that are relevant for classification:**

Oral: LD: Not Determined

Dermal: LD: Not Determined

Inhalative: LC50/4H: Not Determined

Section 12: Ecological Information

General notes:

Do not release material to the environment without proper governmental permits.

Section 13: Disposal Considerations

General notes:

Consult state, local or national regulations to ensure proper disposal. Disposal must be made according to official regulations.

Section 14: Transport Information

Special Shipping Information:

Not regulated.

DOT regulations:

Hazard class: None

Land transport ADR/RID (cross-border)

ADR/RID class: None

Maritime transport IMDG:

IMDG Class: None

Air transport ICAO-TI and IATA-DGR:

ICAO/IATA Class: None

Transport/Additional information:

Not dangerous according to the above specifications. Keep separated from foodstuff.

Section 15: Regulatory Information

National Regulations:

All components of this product are listed on the TSCA Inventory or exempt.

WHMIS Classification:

D2B.

This product has been classified in accordance with the hazard criteria of the *Controlled Products Regulations (CPR)* and the SDS contains all of the information required by the CPR.

Information about limitation of use:

For use only by technically qualified individuals.

Section 16: Other Information

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgment of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
